

Cyclohexane

Page 1 contains a cyclohexane-like ring illustration for testing segmentation.

Cyclohexane

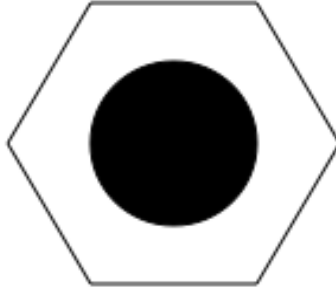

Figure 1. Cyclohexane test diagram.

Hexane

Page 2 contains a linear alkane-like chain for testing extraction.

Hexane

Figure 2. Hexane test diagram.

Naphthalene

Page 3 contains a fused-ring illustration similar to aromatic systems.

Naphthalene

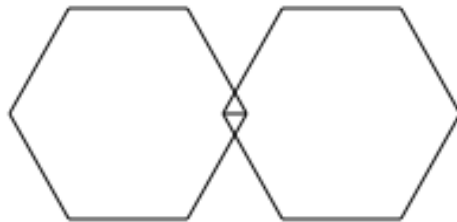

Figure 3. Naphthalene test diagram.

Imidazole

Page 4 contains a five-membered heterocycle-style illustration.

Imidazole

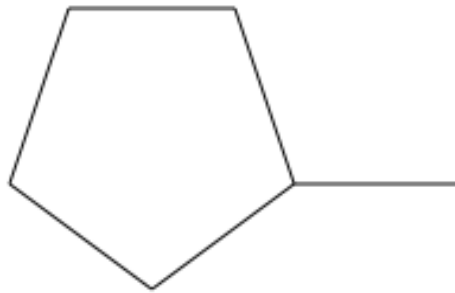

Figure 4. Imidazole test diagram.
